K.D. MATTHEWS CONVICTED IN ASSAULT CASE

An Adams County jury Thursday afternoon hearing the aggravated assault and battery against Kenneth David Matthews, 25, Gettysburg R. 3, had four counts to consider.

There was a charge of aggravated assault and battery and assault with intent to maim against Matthews for slashing Harold Augustus Dayhoff, 28, 203 Hanover St., in a fight during the early morning hours of January 23 on a porch at the West Gettysburg Inn.

Second Stabbing

He faced the same charges based upon stabbing James Albert Hankey, 25, of 19 Fifth St., at the same time.

Testimony in the case was that Matthews invited Dayhoff out of the West Gettysburg Inn and Dayhoff had accepted. There followed an exchange of fistuffs and Matthews allegedly drew a knife and cut Dayhoff across the arm and back a number of times.

Hankey testified he was told by others in the bar that "Matthews carries a knife" and went to see if Dayhoff might need assistance. He found the two men struggling on the porch and approached to help. He said he was stabbed in the back of the stomach.

The jury found Matthews guilty of aggravated assault and battery with intent to maim Dayhoff. It found Matthews innocent of any intent or assault in connection with Hankey's stabbing.

CONVICT PAIR FOR ATTACK ON BOY SCOUTER

Ronald J. Farrer and Donald R. Andrews, both of Gettysburg R. 4, were found guilty of assault and battery on a Boy Scout leader by an Adams County jury today.

Hockensmith and Hale had entered pleas of guilty to the charge. Farrer and Andrews had entered pleas of guilty, then withdrew them and went to trial.

Edgar Weaver, Gettysburg R. 4, was foreman of the jury which included Raymond Wagman, Hanover R. 4; Charles Spangler, East Berlin; Holman Sell, Littlestown; Herbert A. Raab, Gettysburg R. 3; Guy Herring, Arendtsville; Paul Hall, Orrtanna R. 1; Wilmer E. Gross, Abbotstown R. 1; Harold Greenholt, McSherrystown; Robert Ditchburn, Gettysburg R. 4; Elmer E. U.S. Fails To Sail Huge Balloon Into Orbit Today

CAPE CANAVERAL, Fla. (AP)—The United States tried but apparently failed today in an effort to sail a giant balloon satellite into orbit around the earth as a reflector for long-range radio waves.

The experiment, called Project Echo, will be tried again later this year. Its ultimate aim is a procession of 100-foot aluminum-coated plastic spheres circling the planet as dependable backboards for worldwide communication signals.

Today's balloon, collapsed inside a 26½-inch magnesium ball, got off to an apparently good start at 4:16 a.m. from this missile test station on the nose of a towering Thor-Delta rocket. The aim was to eject the balloon and inflate it at orbit level.

Ground observers saw the second stage rocket take over in the sky some three minutes later but contact was soon lost.

Route 15 Bypass To Go East Of Town On 17-Mile Path North From Md. Line

The Route 15 bypass of Gettysburg to be completed by the state Highways Department by 1963 will go east of town, crossing the Lincoln Highway about two miles east of Gettysburg, The Gettysburg Times learned today.

The bypass will extend 17 miles from the Maryland line on the east side of Route 15 and Gettysburg to link with the present Gettysburg-Harrisburg Highway near Stone Jug Hill.

The Times also was told that at Stone Jug the new highway will tie in with another section of the Harrisburg Rd. to be improved from York Springs to that point. Reports said stakes already are in place for that link.

Survey Mile Path

A request by The Times to the state Highways Department for a map of the bypass route brought the statement that no map can be released now for the reason district engineers have surveyed "a band a mile wide" along the proposed route and that actual construction might take place anywhere within that mile-wide strip.

Public hearings are to be arranged and at that time route maps will be available, the department said.

An announcement from Harrisburg today said the Department of Highways has retained a civil engineering firm to prepare construction plans for the Route 15 bypass of Gettysburg.

The firm of Grof and Myers, Inc., Harrisburg, will receive a fee estimated to be \$399,500 for the work. The firm has been allowed 12 months to complete the construction drawings.

"Avoids Battlefield"

The bypass route, recommended out of five possible routes reported to have been surveyed by the state in the extensive preliminary studies, is said to "avoid the battlefield park."

The bypass plans are to be made in such a way that the department may let contracts separately either for the northbound or southbound lanes. Where feasible, the design shall consist of two separate one-way roads to take advantage of terrain and other conditions for safety, economy and appearance, the department said.

The state expects to finance the project in the federal aid primary program under which half the cost of the bypass will be borne by the United States government.

Paper Says Powers Was "Sold Out"; Manhunt On

NEW YORK (AP) — The New York Daily News said in a copy-right story today that American pilot Francis G. Powers was "sold out" and that a manhunt has been launched for the agent who did it.

The News said Powers was a sitting duck from the time he left his home base in Turkey and that Soviet radar tracked him all the way.

Manhunt Is On

But Powers was unable to restart it and was instructed by radio to bail out and blow up the aircraft. Obviously, said the News, these orders either were not received or were disregarded.

Powers was downed May 1 while flying a reconnaissance flight in a U2 jet plane over Soviet territory. The incident has caused an international furor.

"Somebody sold him out," the News quoted a top official in Washington. "And we want him. Obviously, the Soviet agents have penetrated our operations on the ground." The manhunt is going on in Turkey and the Middle East, said the News.

Hunting "Spectacular"

Powers, the article continued, was on the Peshawar, Pakistan-Norway route, which has been flown so often it is called a milk run in aviation circles.

The News said the chief target was the comparatively new Soviet rocket and missile center at Tyura Tam, south of Arsk near the Ural Sea.

U. S. intelligence agencies have received reports that the Soviets were going to make a surprise space shot either in connection with next week's summit meeting in Paris or with President Eisenhower's trip, the story said.

"The flight on which Powers was captured was intended specifically to determine what sort of spectacular the Russians had in mind," the article said.

CC MEETINGS

Two meetings of Chamber of Commerce committees have been announced. The industrial committee headed by J. Howard Gaines will meet Wednesday at noon at the Lamp Post Restaurant. The civic committee headed by Ralph Will will meet at the same place at 12 noon May 24.

FIFTEEN YEARS AGO

Hostilities Cease At 6:01 P.M.

Today, Truman Proclaims German Surrender "A Glorious Hour": London May 8 (AP) — The Allies proclaimed the unconditional surrender of Germany, President Truman in Washington, announcing "a solemn but a glorious hour," set next Sunday as a day of thanksgiving but reminded "our blows will continue until the Japanese lay down their arms in unconditional surrender." Prime Minister Churchill told the world the Germans had signed the unconditional surrender of all their land, sea and air forces in Europe at 2:41 a.m. yesterday.

222 Countians Give Blood On "Victory Day": Celebrating the news of victory in Europe in a practical way, 222 Adams countians gave one pint of blood each for processing into plasma to help save the lives of American fighting men on Pacific battlefronts when the Red Cross blood receiving unit visited here.

V-E Day Being Marked In The County: Many Stores Close: Taking their cue from the official proclamation of V-E Day by President Truman this morning, most Adams countians went through with formal observance of victory in Europe today but the day's events were an anticlimax to the thrill of the first news of the German capitulation flashed over Associated Press wires Monday morning.

Immediately following the President's announcement this morning, the fire siren, church bells and factory whistles of Gettysburg blew for five minutes and town business places began to close their doors for the remainder of the day.

Blood Donor Service Curtailed; Ends Here: With the announcement of the curtailment of the Red Cross Blood Donor program due to reduced requirements on the battlefield, the Red Cross disclosed that 19 of the 30 blood donor units in the nation are being closed down with only 11 being continued.

"Open House" At New Youth Center: The Gettysburg Youth Center will open in its new quarters in the Old Citizens Trust company building on Baltimore street Saturday evening at 8 o'clock.

Membership In County Library Reaches 2,700: With the report that 2,700 charter memberships in the Adams County Free Library association already have been subscribed and the prediction that the 3,000 membership goal will be reached or exceeded in June, the board of directors of the library association Friday evening authorized a committee to negotiate for a trained and fully qualified librarian and took steps to facilitate early incorporation of the association.

Advance Plans For Memorial Exercises: Plans for the May 30 parade and the names of participants in the National Cemetery exercises were announced by the Memorial Day committee. United States Senator Robert A. Taft, of Ohio, will be the main speaker for the exercises to be held on the rostrum in the cemetery.

New Officers Installed By Woman's Club: Mrs. J. Walter Coleman, retiring president of the Gettysburg Woman's Club, installed these new officers at the final meeting of the club year: Vice president, Mrs. Russell A. Campbell; recording secretary, Mrs. Richard Brown; corresponding secretary, Mrs. C. E. Bilheimer and treasurer, Mrs. E. E. Ziegler. The new president, Mrs. William C. Tyson, is out of town and could not be present for the installation.

Today's Talk

BOOKS ARE PEOPLE
WALKING

I love to roam about in a second-hand book shop. People who have never had such an experience have missed a fascinating thrill. I have discovered many a prized volume in one of these active shrines. Most of these places are silent. Lovers of books like it that way, so that they may not be disturbed in their "hunt."

The more I think of books, and read them, the more do they seem like real men and women one has so much in common. Their talk is silent talk, all by themselves! Books go visiting the same as their author, but they do no boasting. Even when a good book is "lost" it goes right on walking and talking.

Just to touch the hand of a book-lover is to touch hope, power and the will to think and move among those who inspire the humblest among us. Books never die. Many there are that have earned immortality!

Books are people walking, alone, and thinking, trying to make this a better world in which to live. Collectors of rare books cheer in their heart when they discover a "sleeper"—a book that has evaded discovery. Happy hunting!

Tomorrow Mr. Adams will talk on the subject: "Good Habits to Form"

Just Folks

THE TRAVELER

I notice when I travel forth,
That whether I go south or north,
Or west or east, or just between,
The lights of little homes are seen.And I can see from every train
Young faces at a window pane.The little yards have crimson flowers
Which very much resemble ours.I'd swear the Boston Ivy vine
Climbs up the wall the same as mine.Where'er I turn I seem to find
The very joys I've left behind.Off there are playthings strewn about!
My children leave their wagons out.I see the women at the door
And know just what they're looking for—Wherever can the youngsters be,
'Tis time that they were home for tea.And day and night, where'er I roam,
I see the little lights of home.And, oh! I envy them who stay
And sit beside their window panes
And do not have to ride on trains.

GUILD HOLDS

\$20 A PLATE

FETE IN WEST

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—Notes and comment on the Hollywood scene: Hollywood is a place where they have a tux-and-mink strike rally at \$20 a plate. That was the situation at the Writers Guild of America banquet last weekend. The writers gave out their annual awards and saw no reason to cancel the show because they have been on strike for four months.

The show did go on, and what a show! It was the kind the academy has tried to stage on TV, but has never quite managed.

Milton Berle and Edie Adams did an Alpine spoof of the stars who are storing up tax dollars by living in Switzerland. There were skits with Craig Stevens (Peter Gunn) as David Susskind, George Jessel as the world's oldest living theater man, Burt Lancaster as a song and dance man, a be-draggled crew of gladiators spending their lives making "Spartacus," and Dan Dailey in a "My Fair Lady" parody.

Gags About Writers

There were gags about the writers' plight—"Never have we owed so much to so few"—and the actors' strike—"Remember when the actors used to do their fighting on the Sunset Strip?"

The writers kidded everything in sight, especially themselves. Now the party's over, and the strike continues. The producers seem even further apart from the writers than they were from the actors. The writers hold unwaveringly to the theory that they create film material and hence seek to enjoy a royalty therefrom. The producers aren't budging, and the wheels of production are slowly running down.

Even if there is a settlement, it would be weeks and months before the studios would again have a backlog of scripts to resume shooting.

Friends are wondering if the Lucille Ball-Desi Arnaz divorce will stick. They point out that she was fairly easy on him in her testimony, citing only his temper, and that the pair is still deeply involved in business matters.

"Lucille changed her mind before; she could do it again," says one buddy.

Asks No Cuts In Foreign Aid Bill

WASHINGTON (AP) — Under Secretary of State C. Douglas Dillon goes before the Senate Appropriations Committee today to ask that no cuts be made in foreign aid money.

President Eisenhower has said any such reductions would produce "calamitous results."

Dillon's scheduled testimony follows congressional passage Thursday of an authorization bill setting ceilings for overseas spending at \$4,086,300,000, just \$8,700,000 less than Eisenhower asked.

But the appropriation measure, which provides the actual money, is the object of proposals by opponents to cut the program by as much as 1½ billion dollars.

PATTON CLAY FIRM IS BUSY AFTER BOOST

PATTON, Pa. (AP)—The Patton Clay Manufacturing Co.—wallpapering in financial distress in March—has more business now that it knows what to do with, thanks to the efforts of this Cambria County community.

"We have sales for more than we can make right now. The firm is experiencing more sales than it has for the past three years," Dr. Richard Murray, general manager of the plant, said Thursday.

The community launched an attack to pull its principal industry out of its financial doldrums after Patton Clay announced in January that it recorded unprofitable years in 1958 and 1959.

Working Overtime
The people of Patton started a bond drive to obtain \$300,000 for the firm. The plant's 203 production workers said they would forego two days' pay each week for six weeks. They did so on the promise that the company would repay them in October or November.

The drive has netted more than \$240,000. Of this amount, \$80,000 was collected in cash, \$100,000 through the payroll deductions and the rest in monthly pledge payments.

Patton Clay makes pipe, flue liners and various forms of tile and fire brick.

According to General Manager Murray, employees are working five days a week.

"We've also had some overtime," he added.

30 KINDS OF FISH GIVEN

PRICE TAGS

HARRISBURG (AP)—The State Fish Commission is not in the business of selling fish but it has set up a schedule of prices for some 30 different kinds and sizes.

The commission set the value of the various species in order to know what to charge in case of a fish kill. Normally, the bill runs into the thousands of dollars.

Minnows or suckers under six inches are the cheapest on the list, ranging from 3 to 8 cents, depending on size. The most expensive fish on the list is a 20-inch trout which cost \$8.

Replacement Costs
"Those values, as nearly as can be determined, are replacement costs," said Dr. A. S. Hazzard, assistant executive director.

"When there is a fish kill our wardens determine the number and type and the person responsible is billed accordingly," he said. "Generally they are very willing to accept the estimate."

Rock bass, perch, crappies, sunfish and bluegill sunfish range from 8 to 25 cents on the commission price list, depending on size. Catfish range from 8 cents to 35 cents.

The price for other species: trout 15 cents to \$8; walleye pike or Susquehanna salmon \$1.30 to \$1.50; black bass, \$1 to \$4.50; pickerel \$1 to \$1.50, and suckers over six inches 25 to 50 cents.

Regional warden supervisors set the price for muskellunge.

Householders and shopkeepers in Bruges, Belgium, are easily persuaded by the city to use colors the government approves. And if they improve their properties along traditional lines, the government will pay 30 per cent of the bill.

Carlisle And Biglerville Rated Teams To Beat In South Penn Meet Saturday

"Experts" have established Carlisle High School as the favorite in the 26th annual South Penn Conference track meet to be held Saturday afternoon at Dickinson College, Carlisle, with Don Sterner's Biglerville Cannons as the outfit mostly likely to upend the Thundering Herd.

Six schools will enter the meet with 117 boys having been nominated for the various events.

The pole vault will be the first event in the program and is scheduled to start at noon.

See Close Scrap
The meeting has been rated by many as promising to be one of the closest in years with "dark horses" having good chances of edging the favorites.

Biglerville will enter a 17-man squad. George Forney has nominated 19 from Gettysburg. Hancock heads the list with 23 entries. Carlisle has 22, Waynesboro 19 and Chambersburg champions for the past three years, 17. Chambersburg may cut its list due to a senior class trip Saturday to Washington.

Biglerville will pin its hopes on the following:

Weather Knocks Out Sports Card
Inclement weather on Thursday again wiped the sports schedule off the boards.

Gettysburg College's tennis match with Albright was cancelled. The freshman baseball game at Frederick was also eliminated from the schedule.

Delone and Bermudian High Schools have rescheduled their baseball game for May 23 at York Springs.

Mt. St. Mary's and Western Maryland may make up their baseball game Monday at Emmitsburg, providing the game would affect Western Maryland bids for the Northern Division title in the Mason-Dixon Conference.

The Emmitsburg-Blue Ridge baseball game in the Pen-Mar League was rained out and will be played at a later date.

Plane Flips Over; Two Escape Injury
LEWISBERRY, Pa. (AP) — A single-engine plane flipped on its back while making an emergency landing in a rain-soaked farm field near here Thursday. Both occupants escaped injury.

David Frederick, Omaha, Neb., told the FAA he attempted the landing rather than try to make the Harrisburg-York State Airport in bad weather.

Frederick and his wife, Arlene, were en route from Lock Haven, Pa., to Silver Spring, Md.

Seven Baseball Games Listed

Five games in the South Penn League and two in the Pen-Mar circuit are on the baseball program for the weekend.

The extra game is Saturday's clash between Cashtown and Bonneauville on the latter's field at 2 o'clock, making up last Sunday's postponement.

Regularly scheduled games Sunday include:

South Penn
Brushstown at Bonneauville
Harney at Greenmount
Arendtsville at Mummaburg

WEST TEAMS IN 3-GAME SERIES

SAN FRANCISCO (AP) — Riding a six-game winning streak — as long as any they've enjoyed since moving to California — the San Francisco Giants tonight open a big three-game set against the Los Angeles Dodgers.

Pitching choices by Managers Bill Rigney of the Giants and Walt Alston of the Dodgers presents a rematch of the April 20 thriller here when lefty Mike McCormick hurled a two-hitter for San Francisco to beat Los Angeles and Don Drysdale 1-0.

Rigney called a special batting practice today for no less than Willie Mays, the fellow leading the National League averages, and Orlando Cepeda, the big Puerto Rican having his worst start in three years of major league ball.

"They're just not hitting so we'll have them out early the next three days. It worked with one fellow and we'll see if it works with them."

Rigney's "one fellow" was Willie Kirkland who snapped out of a prolonged hitting slump and Thursday collected the first hit and only run off Philadelphia and Robin Roberts.

NEW BASEBALL LEAGUE PINS HOPES ON BILL

By JACK CLARY
Associated Press Sports Writer

NEW YORK (AP) — The fate of the Continental League will be decided in Washington beginning next Thursday as the third major baseball league battles the present embryonic state.

The battle lines were drawn here Thursday by Continental League founder Bill Shea when he declared his loop's endorsement of a proposed bill by Tennessee Sen. Estes Kefauver that would limit the number of players controlled by the American and National leagues.

Earlier this week, Baseball Commissioner Ford Frick said that the present majors would oppose such legislation, declaring it would not only harm the two big leagues but kill the minor leagues as well. The bill would limit the number of players a club could control to 100 and make 60 available for an annual player draft.

Representatives of both factions will testify before a Senate Antitrust subcommittee headed by Sen. Kefauver.

If the bill becomes law, then the CL would have a good chance to survive because it would be able to obtain players for its major league teams and begin stocking minor league clubs.

If the bill dies?

Oscar Wilde, annoyed at woman, retorted: "No woman should have a memory. Memory in a woman is the beginning of dowdiness."

Playing The Game

(This is the last of four stories written especially for AP Newsfeatures by the American League's most valuable player.)

By NELLIE FOX
White Sox Second Baseman

CHICAGO (AP) — If you can't hit you should learn to bunt.

I think the person who showed me was Paul Richards. In 1950, my first year with Chicago, I hit .247. Then Richards came here in 1951 and he tried to find another second baseman. He hoped to trade me but there was no other man available. He started me bunting.

The next year I hit .313.

Richards would take coaches Doc Cramer and Luman Harris in the outfield. They would throw to me 15 to 20 minutes at a time from about 25 yards, which was close. I'd bunt down the third base line.

I try to bunt the ball on the last few inches of the bat. I hold my right hand tight near the end of the bat. Then I slide my left hand — or top hand — up to about the trade mark and hold it loose.

With a loose left hand the ball becomes dead after it hits the bat. That also puts backspin on the ball, making it hard for the third baseman or catcher to field.

I haven't mastered the drag bunt yet, but I'm trying. You must get your bat out in front of the ball and hold both hands tight on the bat so that the ball must be fielded by the third baseman or first baseman.

As to the feet. Well, I bat left-handed and when I'm bunting I just bring my left foot around in front while in the act of bunting. That way I'm on my way to first and bunting in the same motion.

Most fellows square around to bunt but they lose that extra step to first when they do it that way.

GIANTS PAD NL LEAD BY NIPPING PHILS

By ED WILKS
Associated Press Sports Writer

Pity those poor San Francisco Giants. They had hitters and slugers so they traded for more pitching. And what happens? Now the hitters don't hit and the slugers get hurt, but they've got a two-game lead, a six-game streak and the best pitching in the National League — thanks to three guys they had all the time.

Right-hander Jack Sanford came up with the third two-hitter of the season by the staff, second in two days, for another 1-0 victory over Philadelphia Thursday. That gave the Giants, held to six hits by loser Robin Roberts and reliever Dick Farrell, their longest winning string since moving to San Francisco in 1958 and padded their lead over idle Pittsburgh.

Third place Milwaukee dropped St. Louis to a sixth straight defeat, winning 4-3 on Ed Mathews' tie-breaking home run in the second inning. Cincinnati stretched its winning streak to eight with a 14-1 romp against Chicago's Cubs.

The Giants didn't get a man on base until Willie Kirkland singled with two out in the fifth. Kirkland stole second, continued to third on rookie catcher Clay Dalrymple's bum throw and scored on Hobie Landritsh's single.

Mathews' sixth home run, third in two games, broke a 3-3 tie for the Braves and beat reliever Larry Jackson (1-5). The Cards, now 0-10 on the road, got their first two runs on a pair of doubles by Bill White and tied it in the eighth on pinch-hitter Curt Flood's sacrifice fly after starter Bob Buhl had walked the bases loaded. Bob Rush (1-0) won it in relief for the Braves.

The Reds scored seven runs in the first and six in the second with 11 of their 17 hits. Six runs were unearned. Bob Anderson (0-1) lost it. Right-hander Bob Purkey (2-1) was the winner. The Cubs, playing their first game in a week after six consecutive postponements, scored their run, unearned, in the fourth inning.

GHS-Waynesboro Game Cancelled

Wet grounds at Waynesboro has resulted in cancellation of the Gettysburg-Waynesboro High School baseball game scheduled for this afternoon.

The Warriors are scheduled to resume their schedule with Delone at McSherrystown on Monday.

DODGERS ARE DRAWING WELL

LOS ANGELES (AP) — San Francisco is not the only California city with a Golden Gate. The Los Angeles Dodgers have got one in operation at the Coliseum.

Artistically, the Dodgers have been going over like a club-footed corps de ballet so far this season, losing 14 of their first 25 games.

Now, if they could make as many runs on the field as they've made to the bank, they'd be so far in front you'd have to measure their lead in light years.

In their first 18 games at home, they've drawn 551,133, for an average of more than 30,000 a game. If they kept this up through their 75 home appearances, they'd finish with a gate of a little less than 2,300,000 — which would be a National League record.

Last year the Dodgers drew 2,071,045 at home. But right now they are more than 60,000 ahead of their 1959 pace.

Nixon Favored To Defeat Kennedy

PRINCETON, N. J. (AP) — A poll of Princeton University students and faculty reveals a majority of them expect Vice President Richard M. Nixon to defeat Sen. John F. Kennedy (D-Mass.) in November's presidential election.

The poll published Thursday by the Daily Princetonian, the campus newspaper, reached a third of Princeton's 3,000 students and about 75 faculty members.

Only three of the faculty members said they actually wanted Nixon for President. Fifty-one preferred former Gov. Alden E. Stevenson of Illinois.

Schreiber was released from Sacred Heart Hospital Thursday after suffering a virus attack. During his absence the A-Sox went into a tailspin and lost the Eastern League lead to Springfield.

Rain washed out all of Thursday night's scheduled games, leaving the Giants in the lead by a half game.

Schreiber, who is hitting .294, won three games for Allentown with ninth inning homers during the club's seven-game victory streak at the start of the season.

Speaks On Planning
Members of the Taneytown City Council were guests at a meeting on "City Government" held by the Taneytown Lions Club Tuesday evening at the Taney Inn. George A. Grier, Westminster, a staff member of the Carroll County Planning Commission, was the speaker.

President Delmar E. Riffle presided. Mayor Raymond J. Perry introduced the speaker. These members of the town council were guests: George W. Motter, president, Carol E. Frock, George T. Kiser and Neal W. Powell.

Grier held county planning "is a vital necessity. We are growing and we are demanding more and more services as we get used to the softer ways of life."

"Because of these demands taxes will go up—but if we are to minimize some of the inevitable costs attendant upon our growth, then planning is essential. For example a sewage disposal plant may serve a situation as of today perfectly. But if indiscriminate development is permitted it may be found that it is not being used to full capacity while another will have to be built elsewhere. Carroll County has 800 miles of hard surface roads and 200 of non-macadamized. Construction of roads costs about \$40,000 per mile. It is easy to see that planning can help get the best use of roads and help keep down the costs."

"Planning is needed to meet the problems of growth. If 100 families are added to your town you could figure 100 more children have been added, 67 of them in the elementary grades and 33 in the high school, \$120,000 will have to be added to the school budget and about \$15,000 to the town budget, an additional policeman and fireman will have to be secured, as well as a new hospital bed and one new jail cell. In addition 140 more autos will help congest traffic. In tangible benefits the 100 families will add \$590,000 in personal income, \$270,000 in bank deposits and four more retail stores will spring up."

The next meeting of the Taneytown Lions will be held May 24. Convention delegates will report at the June 14 meeting. Scheduled to attend the convention at Atlantic City May 25 to 28 and promote the candidacy of Harry B.

airplanes, including the American U2 which came down deep inside the Soviet Union May 1. It is well established in international law that a nation's sovereignty extends into the airspace above its land boundaries. This country has sought to justify the U2 plane flights not under international law but under the requirements of self-defense.

Law In Infancy
International law — which is based on international agreements, practice and writings — is still in its infancy in the new world of space.

U. S. authorities say, however, that under the developing law it appears to be perfectly legal for a nation to toss up a peaceful-purpose satellite without another's permission even though the satellite, does roam high across other borders.

The legality of such launches was indicated in a U. N. Space Committee report last summer. Launchings were made by both the Soviet Union and the United States under the International Geophysical Year scientific program.

JACK KENNEDY HITS TOP SPEED ON 1960 GOAL

By JACK BELL
CHARLESTON, W. Va. (AP) — Sen. John F. Kennedy's thundering victory in this state has vastly increased the momentum of his drive for the Democratic presidential nomination.

For one thing it has given him a counter-argument to use against those who say a Roman Catholic cannot win the presidency.

Kennedy has put other aspirants for the Democratic nomination in a deep hole. He has put the squeeze on heads of big convention delegations who have been holding out against him on the principal grounds that a man of his faith couldn't win in November.

Hits Top Speed

He has, in other words, got his convention bandwagon rolling at top speed. It will be difficult for his major rivals, Senate Democratic Leader Lyndon B. Johnson of Texas and Sen. Stuart Symington (D-Mo.), to stop it.

Vice President Richard M. Nixon, who called Kennedy's West Virginia triumph in advance, al-

ready has given notice he plans to begin campaigning at once, as if he and the Massachusetts senator already were the rival presidential nominees.

Nothing could have been more convincing to the politicians than the way Kennedy mopped up in every section of West Virginia in corraling 60 per cent of the total vote.

Had Voiced Doubts
His followers had been voicing their doubts that he could win in a state with a population only 4.5 per cent Catholic. Moreover, they had contended hill country fundamentalism made West Virginia more vigorously Protestant than almost any other state.

But it wasn't that way at all. Kennedy won almost everywhere. And the few counties that gave Humphrey majorities were no less overwhelmingly Protestant than those that swamped him.

Humphrey didn't say where he will urge his unhorsed delegates representing 34½ convention votes to go. But the general expectation was that some of them and some of his active backers may seek a home with Adlai E. Stevenson.

Stevenson has said he isn't running, and doesn't expect to be drafted. But unless he should announce his support of Kennedy or some other aspirant, he still will be viewed as a possibility.

34 DOGS WAS JUST TOO MANY

FAIR LAWN, N.J. (AP)—Pet-loving Frank Brewer, who kept 34 dogs around the house, faced some problems today.

Health Department officials, who kept counting Scottie dogs at Brewer's 14-room house, impounded the lot.

"They just multiplied," Brewer said.

The bachelor teacher was dogged by these problems: Magistrate Arthur Minuskin fined him \$200 and sentenced him to 15 days in jail for violating borough ordinances on dogs. He said he would hold up the sentences while Brewer appeals.

Minuskin gave Brewer 10 days to get rid of the dogs and Brewer says it'll take at least 60.

A woman neighbor added a new complaint of disturbance by excessive barking.

Brewer, about 52, told a reporter he had started with just a few dogs.

"Scottie litters are usually three," he said. "All my litters got nine."

Kennedy Declares He Will Get Democratic Nomination For President Next July

By THE ASSOCIATED PRESS
Sen. John F. Kennedy (D-Mass.) pointed his efforts at next week's Maryland primary today as political leaders assessed the effects of his victories in West Virginia and Nebraska.

Kennedy confidently told a news conference Wednesday his overwhelming defeat of Sen. Hubert H. Humphrey (D-Minn.) in West Virginia assures him the Democratic nomination for president at the Democratic convention in Los Angeles.

Others who will have a major say in selection of the nominee didn't go so far, but some of them conceded the West Virginia showing will have a strong effect.

"Results Are Meaningful"
For example: "The results are meaningful in our own state of New York." That came in a joint statement Wednesday from Democratic State Chairman Michael H. Prendergast and Carmine G. DeSapio, national committeeman and leader of Tammany Hall.

They added the result "will be a highly significant and serious factor" in the deliberations of the state's delegation, which will be chosen in a primary June 7. They didn't commit themselves further. New York carries 114 convention votes.

On the other hand, Gov. Edmund G. Brown of California and Gov. David Lawrence of Pennsylvania maintained their previous positions of neutrality in the Democratic presidential race, though hailing Kennedy's West Virginia triumph. They'll control delegations with 81 votes each at the July convention.

"On His Way"
Gov. Michael V. DiSalle of Ohio (64 votes) said "Kennedy is on his way." He added, "His victory is more significant than the vote indicates." Ohio's first-ballot

votes were already in line for Kennedy, but his friends now believe they'll stay in line past the first ballot if need be.

The latest Associated Press tabulation shows Kennedy in the lead with 241½ convention votes, about one-third of the 761 he needs for nomination.

He gained no automatic votes in either West Virginia or Nebraska, where primaries do not bind the delegates, but he is virtually assured Maryland's 24 votes after the May 17 primary there. He faces token opposition from Sen. Wayne Morse (D-Ore.).

"Diminish Religious Issue"
As to the religion issue, Kennedy said the West Virginia result diminished it, if not eliminated it. A Roman Catholic, he won 60.5 per cent of the vote in the predominantly Protestant state, while Humphrey, a Protestant, got about 39 per cent.

Humphrey permanently bowed out of the 1960 presidential sweepstakes. At Chestertown, Md., Wednesday night Kennedy criticized the timing of President Eisenhower's recent announcement that the United States would resume nuclear tests. He said this might hamper disarmament talks and make this nation appear "disinterested" in nuclear disarmament.

Spent \$70,000
At his news conference earlier in the day, President Eisenhower said the tests would be made solely to discover if there was a foolproof way to monitor nuclear blasts in order to police a test ban. And he said the Soviet Union and Great Britain would take part in the tests.

Kennedy was asked by newsmen about reports he'd poured money into his West Virginia campaign. Kennedy estimated outlays at \$40,000 to \$50,000, then upped the figure to about \$70,000. But he said he "did not spend as much as Nixon did in Indiana."

He said Vice President Richard M. Nixon or his supporters spent "at least \$150,000" in Indiana. This brought a snort of "ridiculous" from Nixon's press secretary, Herbert Klein, who added that "Sen. Kennedy should be the last person to raise any question about excessive spending in campaigns."

Good Nixon Write-ins
Both Kennedy and Nixon scored in Tuesday's Nebraska primary. Kennedy, the only presidential candidate on the ballot, got the highest total for a Democratic contender in the state in 20 years. Nixon got an unexpectedly large outpouring of write-in votes, though a smaller total than Kennedy's.

Late, late returns in Pennsylvania's primary last month came Wednesday. They showed Nixon did top the primary performance of President Eisenhower in 1956. Nixon got 954,205 votes, Eisenhower 951,932.

Sen. Humphrey, managing a sunny smile, returned to the Senate and bent his attention to getting re-elected to that body. His campaign bus still sat in front of a hotel in Charleston, W. Va., where it had been parking off and on unhindered for three weeks.

But things were different Wednesday. A cop put a parking ticket on the bus.

Scribe Predicts Return Of Double-Breasted Suit

By HAL BOYLE

NEW YORK (AP)—To fight inflation, save your double-breasted suits. They will return.

As an intermittent career fat man—my weight at least twice during the year tides back and forth from below 180 to above 210 pounds—I am convinced that a thoughtful man's best friend is not a dog but a double-breasted suit. Wives, I have found, can be divided into two classes—those who believe a double-breasted suit improves a stout boy's silhouette, and those who think a double-breasted suit only makes him look even more like a human dart board.

"Unstylishly Fat"
My own wife, I regret to confess, is among the latter. She shares a widespread misconception common among many wives that a double-breasted suit makes a stylishly stout man look unstylishly fat.

Nothing could be further from the truth—as any fat man knows. I have three skimpy single-breasted suits in good repair which my wife no longer permits me to put on in public.

"You may be built like a potato," said Frances, "but you don't have to brag about it. Let's keep the secret in the family."

Skimpy Tie, Suit
She has the ridiculous idea that if a fellow wears a skinny necktie and a skimpy suit he will look slimmer.

Maybe this is so. Maybe if you skinned a buffalo alive he would have an Ivy League look and you couldn't tell him from any other Harvard, Yale or Princeton sophomore.

present. Secretary Clara Jean Tyler read the minutes of the last meeting after which the group saluted the flag and recited the promise.

But the main thing, that would be true if you robbed him of his living robe is—he would no longer look like a buffalo.

There may be a virtue in following the current masculine style of dressing in skin-tight clothes that make a fellow look like a suddenly peeled rabbit. But somehow I can't see it.

Walking On Grapes
Men who dress that way look to me like fellows walking on tiptoe across grapes—and as if they took a deep breath or ate another calorie for lunch they would pop their buttons.

A man has to dress for his time and his feelings, but I think the American male would have more self-confidence if he had the expansive assurance that a double-breasted suit brings. I think he would also feel more secure if he also wore a vest and an old-fashioned open-faced gold watch—instead of a nervous alarm clock on his wrist.

My theory is that we still have time in this world to be and feel like ourselves—and that a man who dresses skimpy and looks skimpy is bound in time to feel skimpy.

The man of the future will comfortably face tomorrow in a double-breasted suit. Common sense is never out of style.

GROUP OKAYS NEW PROJECTS

WASHINGTON (AP)—The Senate Armed Services Committee Wednesday approved a military construction bill authorizing \$-259,000 for Pennsylvania projects. The bill authorizes a total of \$1,182,094,000 in military construction for the year beginning July 1.

LAS VEGAS, Nev. (AP)—"I'm terribly happy, now I'll have something I never had—a family of my own," beamed Eartha Kitt soon-to-be June bride.

The Negro entertainer and handsome, sandy-haired Bill McDonald picked up a marriage license Wednesday on a flying trip to Los Angeles. Both are 30-years old.

"We plan to be married June 9 in a quiet ceremony at my parents' home," said McDonald, son of a wealthy Los Angeles business executive.

"But the honeymoon will have to wait," said Eartha, a Southern sharecropper's daughter. "I've got a concert tour in this country and European engagements that will last through Christmas."

The bill includes these Pennsylvania projects:

Lay Treasures In Heaven For Your Future

By REV. L. J. KARSCHNER

Pastor

St. John's Lutheran Church Abbottstown, Pa.

"How much did he leave?" asked a man of a friend as they talked about a mutual acquaintance who had died. "He left every cent; he couldn't take any with him" was the man's reply.

"You can't take it with you. Shrouds have no pockets" we often hear. We call the ancients naive for burying food and possessions with their dead, thinking they would need these things in the next world.

Yet Jesus says (Mt. 6:19-23) "Do not lay up for yourselves treasures on earth, where moth and rust consume and where thieves break in and steal, but lay up for yourselves treasures in heaven, where neither moth nor rust consumes and where thieves do not break in and steal. For where your treasure is, there will your heart be also." (R.S.V.)

Treasures In Heaven

It certainly sounds as if we can take some things with us, doesn't it? "Lay up treasures in heaven." People are looking for sound investments these days. They want their bank deposits insured, their valuables in safe deposit boxes, their homes securely locked, their property insured, and their old age assured. With such a craving for safety, we ought to welcome a place where our treasures will be secure.

It isn't the easiest thing to accumulate great possessions in our day — and have them paid for! Our hats are off to those who can shoulder their way into the economic world and carve out places for themselves. But before we are ready to give such men our highest esteem, remember the man whose crops so overtaxed his barns that he had to build larger. Jesus called him a fool for he said, "Soul, thou hast much goods stored up."

"Exhibit A"

That man might be called "Exhibit A" for the truth that laying up earthly treasures often robs men of their heavenly treasures. Riches are like radio-active materials—beneficial when handled right—but highly dangerous. Not many people know how to handle them without damage to the soul. So often they become a dead weight keeping the soul chained to the things of earth. These you can never take with you.

What, then, can we take along into that other world? Well, Jesus told of the rich man and Lazarus. In that story Jesus had Abraham say, "Son, remember that you in your lifetime received your good things, and Lazarus in like manner evil things. . . . If he could remember this, he undoubtedly could remember other things, too. Memory can be a blessing or a curse, depending upon what we have to remember. As the years come and go, we spend more and more time remembering the days that are past—the good and the bad times we have had, the people we have helped and those we have hurt. We better be careful what we put into the memory for they stay with us a long time.

Here is something else we can take along—the record of what we have done with what God has given us. It can be a record which will elicit the praise of God. So much of the praise we hear today is hollow and insincere. But if God praises us, we can be sure it will be genuine.

Jesus told about conditions on those other shores in Mt. 25:34 in these words, "Come, O blessed of my Father, inherit the Kingdom prepared for you from the foundations of the world; for I was hungry and ye gave me food, I was thirsty and ye gave me drink. . . . We dare not jump to the conclusion from these words that we can enter heaven by just being generous to the poor. But, when we have been saved by Jesus Christ, He expects us to use our possessions—no matter how great or how small—for noble purposes. When we have done this, we can be sure there will be treasures in heaven for us.

It just isn't true, then, that "we can't take it with us." We will have to take some things along. We can take very few things with us, if our day by day choices have been right. But we better develop a deep love for things spiritual, a high estimate of those things which need not be laid aside and left behind. We can have a treasure chest filled with things we can take along.

Prayer: O God, who dost fill our lives with so many blessings and opportunities for service, help us to use them for the correction of the world's ills, for the blessing of Thy Holy Name, and for the extension of Thy Kingdom. Then we shall be rich in those treasures that shall bring us great joy while here on earth and even greater joys in heaven. Through Jesus Christ, Thy dear Son, our Lord. Amen.

Only four strings! But these four strings offer endless possibilities of tone and harmony. They open to man new horizons of beauty and happiness.

And yet, improperly played, these four strings can bring forth unbelievable discord!

There are four strings in life — with similar possibilities. Mind . . . Character . . . Courage . . . Faith!

The truths that fill our minds, the ideals that mold our character, the purposes to which our courage is given, the realities in which we believe; these can fill our lives with rich beauty and happiness or drab ugliness and sorrow.

For centuries the Church has been the *maestro* of these strings of life — helping men to bring from their own souls the harmony and beauty God has put there.

You can find music in everyday living through participation in the work of the Church.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

TWO DRINKS MAKE DRIVER ROAD MENACE

HARRISBURG (AP) — Studies have shown that two drinks within an hour make a motorist a menace to himself and others while three drinks in an hour are too many, the state health secretary said today.

Educating people not to drink and drive will be a major project in the state's highway safety program, Dr. Charles L. Wilbar said.

The Health Department's Division of Behavioral Problems will administer the project. Wilbar said it would get under way soon.

Accident—Prone
A major aim of the campaign will be to win public acceptance of chemical tests as a legal basis for prosecuting drunken drivers.

In areas where highway accident surveys have been made, Wilbar said, a drinking driver has been involved in nearly 50 percent of all accidents.

The claim that alcohol makes people sharper and more efficient is an "old wives' tale," he added. Drinking reduces vision and hearing abilities, interferes with coordination and lengthens reaction time, he said, and reduces judgment and self-control.

The social drinker with a "few drinks under his belt" is more dangerous than the obviously intoxicated driver, Wilbar continued. The intoxicated driver, weaving on and off the road, is spotted quickly, he explained, while the social drinker, unaware his driving abilities are impaired, will be stopped only after he is involved in an accident.

RENO, Nev. (AP)—Reno's first bare-bosomed night club act got off to a false start Thursday night with what might be called a reverse strip tease.

A hotel had promised 10 chorines—bare from the waist up. Four girls showed up, scantily clad but not bare bodomed.

In the first act they were covered with strategically placed ornamentation. In the second act, their bosoms were covered with gauze.

Equal Pay Law To Be Challenged

HARRISBURG (AP) — Employers will challenge the constitutionality of Pennsylvania's new equal pay law, says counsel for the State Hotel and Motel Associations.

Atty. William S. Livengood made the statement Thursday at one in a series of meetings set up by the State Labor and Industry Department to explain the act.

Union and management representatives used the session as a forum to voice objections to the law which is designed to guarantee women the same pay as men for doing similar work.

Cline's EUB Church To Mark 110th Anniversary

The congregation of the Cline's Evangelical United Brethren Church, at Gardners, will celebrate its 110th anniversary at special services Sunday afternoon at 2 o'clock. The Rev. Harry Krone, a former pastor, will speak. Music will be furnished by the Junior Choir of the York Springs Methodist Church under the direction of Mrs. John Milhimes and by Walter Boyer of the Mt. Tabor EUB Church. The Rev. John H. Witmer, pastor, will be in charge of the services.

The service will include a brief period of reminiscing by Dr. Vernard F. Group and a display of items used during the church's long history. The public is invited. Cline's Church, a stone building set at the point where the old "Long Lane" crossed the old

Carlisle-Gettysburg Road (now about 1/4 mile north of Route 34), was built in 1850. It has been in continuous use since its dedication and is the oldest church house of its denomination in Adams County.

Surrounded By Orchards
Now it is almost completely surrounded by apple orchards and at blossom time is an appealing sight. Recently it is often spoken of as "The Church In The Orchard."

During the years preceding 1850 the area around Gardners was visited regularly by the United Brethren circuit-riding pastors as one of their "appointments." As a result of their work a Sunday School which met at the Gardners school house was organized in 1848. According to the records

Jonas Starner was the first superintendent and John B. Group the first secretary.

During 1848 and 1849 plans were made for the erection of the present edifice. Until it was ready for occupancy church services were held at the home of Joseph Cline who gave the congregation the land upon which the church was built and for whom it was named. The first pastor was the Rev. John Fohl. A Bible presented to the church in 1850 by the Rev. Fohl is one of Cline's treasured possessions and will be displayed at the anniversary service.

Old Records Destroyed
The exact date of the dedication of Cline's is not known since records of the Bendersville Charge of which it was once a part were burned when Rev. D. Barnhart died of smallpox in 1904. The congregation is celebrating the 110th anniversary at the time of the annual homecoming service

this year. In 1927 during the pastorate of the Rev. Dr. Mervie H. Welty the interior of the church was redesigned and rebuilt, including the replacing of uncomfortable old pews with modern ones and a new platform arrangement. The work was extensive and costly but was accomplished without indebtedness by the congregation. The late Charles E. Group was president of the board which planned and accomplished the work. The building remains today much as it was at the completion of the renovation.

Beside the church is a cemetery in which many members of old Adams County families lie buried. Old tombstones bear such names as Cline, Carson, Smyers, Murtoff, Heller, Wright, and Group, naming just a few. The cemetery is administered by an association of which Merl Lobaugh, Bendersville, is president, and

Troopers Change To Summer Garb

HARRISBURG (AP) — State troopers will begin wearing a new summer uniform Sunday.

The new dress, still the traditional grey but lighter and cooler than previous models, will be brightened with touches of black and gold.

Commissioner Frank G. McCartney said Thursday the changes will modernize the uniform and make it more comfortable.

Troopers' shirts will have the striking black and gold combination on the keystone shoulder patch and on chevrons and service stripes. Commissioned officers also will have a gold stripe along their trouser seams.

Dr. Vernard F. Group, Gardners, secretary-treasurer. Plans are now under way to open up a new section and to build a new road as a means of access

Says 26 Pct. Of Pupils Entering High School In Pennsylvania Don't Finish

HARRISBURG (AP) — Twenty-six per cent of Pennsylvania's public school pupils entering the ninth grade never finish high school, a Public Instruction Department official said Thursday.

"The situation is steadily improving," Dr. Carl D. Morneweck, director of the Bureau of Research said in an interview. "But it is still far from ideal."

Ten years ago one of every three pupils starting high school never graduated, he noted. Today that percentage is roughly one of every four.

Only An Estimate
The department based its latest estimate—admittedly a rough one—on a survey of pupils graduating from high school last year. The number was compared against the total pupils who started out in the freshman year.

Morneweck explained: "This can only be an estimate—a guide to go on—because

you must understand that a pupil conceivably could drop out of a public high school and attend classes in another state or at a parochial or private school."

See Improvement
He added, however, department researchers found it was more representative to compare the number of those graduating against those entering the freshman class rather than against those starting in first grade.

"More often than not, a pupil starting high school stays in that school until graduation," Morneweck said. "We do know in general that in 1937 roughly only 34 per cent entering the first grade actually graduated from high school," he added. "Now that figure is about 60 per cent."

Pennsylvania now has 1,948,000 public school pupils. Morneweck said there are many reasons which cause pupils to leave school without violating the state's compulsory attendance law. The statute requires attendance until a boy or girl reaches 17 years but there are exceptions. For example, a pupil can be excused at the age of 15 if a need is shown for him in farm or domestic work.

Generally, Morneweck said, the reasons for leaving are the same in Pennsylvania as elsewhere—economic and social status, lack of education, frequent transfers and poor school attendance.

Khrushchev, Pushed By Impatient Powers, May Have Hurt Years' Work

By WILLIAM L. RYAN
Associated Press News Analyst

Nikita Khrushchev has said to fit almost any occasion. For the summit meeting next week it's: "To kill the bugs one needs to burn down the house."

This attitude seemed to dominate the Soviet Premier's tactics in advance of the summit meeting opening Monday in Paris. World communism, patently, still aims at world domination. But achieving it by force could risk burning down the whole house in a nuclear war.

To that extent, it might be said that Khrushchev sincerely wants peace. Why, then, his belligerent blasts at the West, such as the one before the Supreme Soviet last week?

Impatient Forces
For one thing, the United States indicates it will resist a peace imposed on the world on Soviet terms. For another, there are impatient forces in the background in the Communist world, nagging at Khrushchev and threatening to force him into repeating Stalin's old mistakes.

Communism, a dynamic movement, risks stagnation if it stands still. Khrushchev seems to feel it has plenty of room to move elsewhere than in Europe while it pursues a dogged, long-range attack on NATO's foundations. A factor behind Khrushchev's energetic peace offensive and evident anxiety for a summit meeting seemed to have been a wish to give momentum to a drive against the North Atlantic Treaty Organization. Its liquidation, if it was

to be achieved at all, would take time.

One reason for NATO's existence was a Stalin mistake. His grab for Berlin and openly warlike posture frightened the West into close military cooperation.

Mostly Tactical
Khrushchev's thrusts have been mostly tactical, political feints, showing little inclination to repeat Stalin's errors. Only in an atmosphere of relaxed tension could Khrushchev hope to pull NATO apart.

Yet Khrushchev's blast last week could hardly be considered a contribution to relaxed tension. Perhaps there was more to it than time than just the familiar Communist procedure: Advance and retreat, threat and blandishment.

There are strong indications Khrushchev's all-out peace offensive tactics have been challenged within his own party and among the U.S.S.R.'s allies.

Khrushchev, as many a Communist statement has testified, seemed confident that the balance of political authority was swinging to the Communist side throughout the uncommitted world. His plan seemed to have been to sustain enough pressure to focus world attention on Berlin and Germany, but not enough to upset the peaceful coexistence appeal. Communism could move, meanwhile, in Asia, Africa and Latin America.

Soviet demands in Germany were made in the name of solicitude for peace. West Berlin, three quarters of a city 110 miles inside Red-ruled East Germany, has been an abnormal situation, said Khrushchev, and what could be more reasonable than making it an international free city, perhaps under the United Nations?

That would end the American, British, French and Soviet occupation of Berlin. The U.S. occupation is a token one, but its existence deters Communist dreams of seizing the whole city. With the Americans out and the U.N. administering West Berlin, the Soviets would have a say in its affairs. The U.N. would be a far less effective deterrent.

TROY DONAHUE IS NEW AGE IN MOVIE COLONY

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — Here's good news for parents: The new heartbeat of the teen-age set is a clean-cut young man who neither wiggles nor mumbles and who feels deep responsibility about his newfound fame.

The latest of a long string of scream-evokers is handsome, 6-foot-3 Troy Donahue, whose appeal is more genuine than his manufactured name. Born Merle Johnson and re-dubbed by the same agent who gave you Rock Hudson, Tab Hunter and John Smith, Troy is getting a big ride out of Warner's way.

"No. 1 on the fan mail list at the studio," he reports with a degree of humility. "No. 2 or 3 in all of Hollywood right now. It amazes me."

Had Good Roles
It shouldn't amaze the students of the teen-age idol phenomenon. Troy played opposite another teen heartbeater, Sandra Dee, in "A Summer Place," rapped by the critics as a delicious sex saga but embraced by the nation's film audiences.

"No. 3 in the country last year, right after 'Ben-Hur' and 'Pillow Talk,'" said Troy, 23, who has an accountant's mind for figures.

"Another thing that helped was being on TV. I've played on every one of the Warner series with the exception of 'Bourbon Street Beat.'" He missed the latter only because the network got there first and dropped the show's option.

More Next Season
Next season promises an even greater Troy Donahue saturation. He has a starring role in "The Crowded Sky" with Dana Andrews, Rhonda Fleming and Efrim Zimbalist Jr. He gets top showcasing in the title role of "Parrish," one

of the studio's big efforts of the year.

And he'll be appearing in a weekly TV hour, "Surfside 6," in which he will play the richest boy in the world.

That about describes him these days, as far as his feelings are concerned. Unlike some of the other Burbank actors who claim overwork, Troy has no qualms about the TV series and two films yearly that will keep him working constantly. "Hard work doesn't bother me," he said.

HOW TO RAISE 'HACKLES' ON CAB DRIVERS

By HAL BOYLE
NEW YORK (AP) — Remarks that raise the hackles on a hackle: "Say something funny."

"I hear that all cab drivers are either cards or characters. Which are you?"

"The car ahead of you beat that red light. Why didn't you?"

"Is that the fastest you can go?"

"Can't you go a little slower?"

"I made this same trip two weeks ago in another cab, and the fare was a dime cheaper. I'd like to know how you explain that."

"Oh, silly me. I forgot my purse again. Just give me your name and address — and I'll mail you of the studio's big efforts of the year."

And he'll be appearing in a weekly TV hour, "Surfside 6," in which he will play the richest boy in the world.

That about describes him these days, as far as his feelings are concerned. Unlike some of the other Burbank actors who claim overwork, Troy has no qualms about the TV series and two films yearly that will keep him working constantly. "Hard work doesn't bother me," he said.

LEAVE "WILD BABIES" IN THE WILD: GLENNY

MUMMASBURG—Mr. and Mrs. Harold Martin and family and Mrs. Martin's mother, Mrs. Mabel Clymer, recently spent a week visiting at the home of Mrs. Lloyd Clymer and family at Colquitt, Ga., and at the home of Mr. and Mrs. Benjamin Martin and family, Crestview, Fla.

Mr. and Mrs. Clyde Wilson and Mr. and Mrs. Arno Leatherman, of near Harney, were Mother's Day visitors at the home of Mrs. Florence Wilson.

Mrs. Ida Harmon recently spent several days at the home of her son and daughter-in-law, Mr. and Mrs. Harry Harmon and family.

"In addition to the humane factors listed above, the picking up or disturbing of young wildlife or the nests of wild birds is unlawful and heavy penalties are provided. The Game Commission directs its game protectors to immediately pick up fawn deer and other young wildlife and eggs which persons have taken home from the wild. In a determined effort to reduce to a minimum these incidents of removing wildlife from the wild, game protectors are instructed to take legal action against persons responsible for such incidents."

"Parents should explain to their children that the young and nests of wildlife should not be disturbed and should be 'left in the wild,'" Glenn added.

"Well-meaning persons, in picking up wildlife, are usually motivated by the urge to properly care for these 'orphans.' On the contrary, they are really being quite cruel in taking the young away from the care of its mother. The best care given by these individuals, in most cases, does not suffice to keep the young alive. Likewise nests which these same persons may think abandoned and doomed are being watched by the parents at the time they are being robbed by the well-meaning individual. The most humane procedure is to allow the wild parents to properly care for the young and the nests."

"I don't think it's fair for that meter to go on ticking while we're just standing here waiting for the traffic light to change."

"Young man, if you'll just help me up the stairs with that trunk and four suitcases, I'm sure my daughter will fix you a nice cool glass of lemonade."

"Do you mind stopping at the drug store while I get some aspirin? Then stop at the supermarket while I run in and get a can of chili, and then stop at the—"
